WHAT TO EXPECT FROM YOUR SEWER OR WATERLINE EXCAVATION

Excavation is a significant investment in your home and the process will take time and patience.

At Schuler Service, we want to be transparent about the process, so you know what to expect before, during, and after the excavation is complete. Our team of professionals will be by your side every step of the way.

1 FREE ESTIMATE

Our highly trained estimator will meet with you and discuss all available options in solving your sewer or waterline problems. We will then provide you with a written estimate of the work and answer all your questions.

2 EXCAVATION AREA

Our team goes to great lengths to protect your property and will discuss items to be moved if necessary.

3 SCHEDULING

Scheduling and progression of the job depends on weather and any unforeseen circumstances. Repairs may need to be adjusted and if the work requires multiple days, we will safely mark the affected area(s).

4 LANDSCAPING

Landscaping and surrounding areas may be affected. It is possible that our heavy machinery may need to access other parts of your yard. Rest assured we will repair any disturbances to the best of our abilities using topsoil, seed, and straw. If needed, we will remove and replant shrubs and plants.

5 FENCE REMOVAL

Should any sections of your fence need to be removed, we will take the utmost care to reinstall the section.

6 INSIDE WORK

We take great pride in our work as you do in your home. If work needs to be done inside the home, we will discuss the details and how best to prepare the area.

7 YARD RESTORATION

There will be no unsightly mound in your yard and within a reasonable amount of time, weather permitting, your yard will return to its natural look. We take care to replant bushes and small trees. Flowers and landscape cover are not included in our work. We ask that you help your yard recover by providing proper watering and care for all affected areas.

8 CHOOSE SCHULER!

Regardless of whether we are working inside or outside, we respect your home and property. We understand repairs can be stressful. You can count on our 100+ years of experience and confidence to get the job done!
