CHOOSE SCHULER!

Schuler Service is the team you need on your side when a pipe bursts, a drain clogs or a sewer line backs up. We've seen it all, and yes, we've fixed it. We'll show up in a hurry, often within the same day, to eliminate those plumbing challenges and disasters that can bring your home or business to a screeching halt. We take pride in being the experienced, reliable, affordable choice in the Lehigh Valley.

OUR 5-STAR SERVICES INCLUDE:

PLUMBING REPAIRS, INSTALLATIONS & MAINTENANCE

You rarely think about the network of water and sewer pipes that flow through your home or business until something goes terribly wrong. It's tempting to go into panic mode but don't let that happen. Instead, call Schuler Service! **We're the fully licensed, highly experienced team that provides fast, long-lasting repairs, installations, and maintenance for your plumbing systems.**

DRAIN CLEANING

We're the experts with the unmatched skills and high-tech equipment to remove hair, grease, food, toothpaste caps, and more from your drains and sewer lines. We've even rescued precious jewelry. **We love reuniting customers with prized possessions!**

HYDRO-JETTING

Our powerful hydro-jetting equipment sends streams of pressurized water through your pipes to open them up and get them clean. **It's the environmentally friendly approach because water is the only ingredient!**

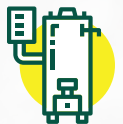

GARBAGE DISPOSALS

Kitchen drains and garbage disposals don't always play well together. **If your food waste disposal is getting old or is obnoxiously loud, maybe it's time to replace it with a quiet and powerful new one.**

SEWAGE LINE REPAIR, REPLACEMENT & INSPECTIONS

Schuler Service uses state-of-the-art video cameras and testing equipment to pinpoint and repair problems with your sewer line. For the most serious problems, we perform trenchless repairs whenever possible, cutting down on disruptions and reducing costs. **No root can stop us in our pursuit of clean lines. Ask us if a new liner is right for you.**

WATER HEATER REPAIR, INSTALLATIONS & MAINTENANCE

When it comes to water heaters, our experienced technicians are trained to follow the latest codes and installation requirements to ensure your family's safety. We're familiar with most makes, models, and styles of water heaters, including traditional, tankless, gas and electric. We install the best equipment with the most advanced features like Microban antimicrobial protection to help prevent growth of bacteria, mold, and mildew on the surface of your tank lining. **Whether it's a repair or replacement, Schuler Service is here for you.**

TOILET REPAIR & INSTALLATION

Whether it's the handle, flush rod, flapper, flush valve, overflow tube or other mechanism, toilet malfunctions can be inconvenient and messy. Let Schuler Service diagnose and repair the problem quickly. When your old toilet needs replacement, or you're ready to upgrade to a new ADH height or power flush system, we're the pros you can trust for a seamless installation. **Don't forget to ask us about newer models that use less water, saving you money and helping the environment.**

FAUCETS & FIXTURES

A dripping faucet can waste thousands of gallons of water if let go. We can fix the faucet or replace it with a new one. We carry many styles of faucets and shower heads to choose from including touchless technology. Did you know that your outside faucet can run both hot and cold water? Do you like to wash your car in the driveway or give your pets a bath outside with the hose? **Consider adding a hot/cold anti-burst water hydrant - your pets will thank you!**

SUMP PUMPS

These are essential when your basement is prone to flooding. They are equipped with sensors and will automatically pump excess water out of your basement when the water reaches a certain level. We can help you choose the sump pump that's right for your home and provide you with reliable, affordable installation, repair, and maintenance services. **We offer battery backup pumps to ensure you're protected even when the power goes out.**

WATER TESTING & TREATMENT

Having the water in your home tested by Schuler Service can provide answers to unpleasant tasting and smelling water. Hard water causes premature wear and tear on all your appliances and unsightly stains on fixtures. We have solutions for all your household water concerns. Hard water can be softened and will save you money. **The Water-Right Impression Series RC is exclusively designed to take care of the unpleasant tastes, odors, and stains.**

NEW TECHNOLOGY

Schuler Service is up on the latest plumbing technology for your home. If you're away from home often or worry about leaks when you're away, consider a remote monitor and shutoff system. Smart technology alerts you and shuts off your water when a leak is detected. **You have full control from your smart phone or tablet. This is just one example of many new possibilities for your home.**

AND SO MUCH MORE...

From whole house re-pipe to burst pipe repair to leak through ceiling, we do all things plumbing and we have over 100 years of experience and reputation to back us. **Choose Schuler for your next plumbing need!**
